

SMS MULTI DISPLAY WALL XL

Large screens – landscape, portrait or in rows.

Are you planning on setting up one or several really large screens?

This universal wall bracket with modular design allow the easy and secure mounting of screens with approximate size 70”-82”, either singly or as video rows.

The screen or screens can be mounted in portrait or landscape mode, selected during mounting. The module enables the screen to be adjusted both vertically and depthwise. The fine adjustment of video rows is very easy. Supplied in a single package.

QUESTIONS AND ANSWERS

How can I mount the screen in portrait mode?

The product makes it possible to mount screens with a maximum hole pattern of 900 x 900 mm in portrait mode. Always double-check the hole pattern and weight of the screen before installation.

Is it safe to mount large and heavy screens?

Yes, each module includes a locking pin to lock the screen. It is also possible to use a padlock (not supplied).

I am planning a video wall with three screens. What should I order?

Each complete module for a screen has a single article number. So for three screens you simply have to order three units of the relevant article number.

LANDSCAPE OR PORTRAIT?

Few solutions for large screens allow you to choose between portrait and landscape mounting. The SMS Multi Display Wall XL allows mounting also in portrait mode for screens with a maximum hole pattern of 900 x 900 mm.

Precise! Fine adjustment in the vertical and depthwise directions allows edge-to-edge mounting.

TECHNICAL SPECIFICATIONS

- For mounting large screens individually or in video rows.
- Finish: aluminium/black.
- Maximum load: 150 kg
- Recommended screen size: Approximately 70"-82".
- Size (bracket, B x H x D): 1000 x 953 x 47 mm.
- Distance from wall to rear of screen: 47 mm
- Can be locked with the accompanying locking pin or with a padlock (not included), to increase personal safety and security from theft.
- The complete solution delivered in one package.
- The product makes it possible to mount screens with a maximum hole pattern of 900 x 900 mm in portrait mode. Always double-check the hole pattern and weight of the screen before installation.
- Suitable for VESA standard: 300-900 mm vertically and 300-900 mm horizontally.
