NEW PROJECTOR SYSTEM SAVES YOU TIME

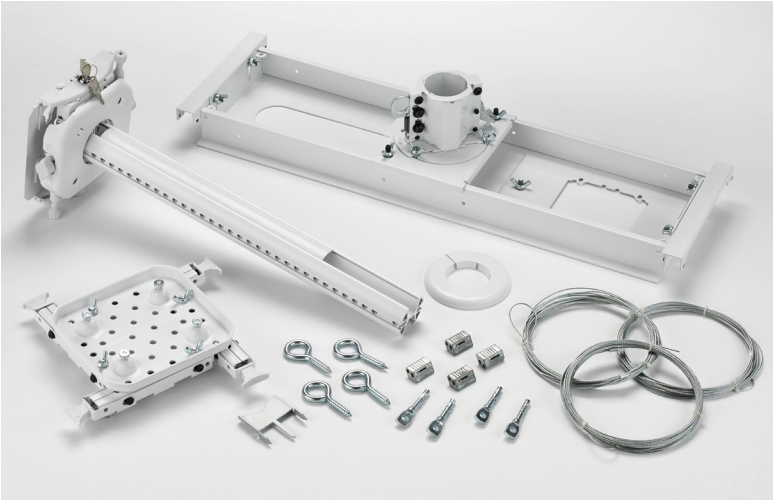

Chief's SYSAU Suspended Ceiling Projector System is designed to cut installation time by one-third. The new system also solves problems like inconsistent ceiling grid systems, adjustment and cumbersome installation processes with a host of innovative, tool-free features.

FEATURES

- System comes out of box in the order needed with mount and column preassembled
- Adjustable ceiling plate allows placement above or below tile and accommodates inconsistent T-grids
- Detachable electric plate for pre-wiring
- Tool-Free Microzone™ adjustment with a positive drive system eliminates the need for set screws
- Centris™ Technology enables effortless fingertip positioning with new tool-free lock down
- Adjustable 0 - 305 mm column with dual inlay channels
- Improved universal interface for easier lock/unlock at projector connection
- Quick-disconnect from interface to projector and interface to mount for easy access while maintaining registration
- Integrated key and lock system
- Single SKU ordering and less packaging to recycle
