FUNC SHORT THROW
MOBILE MOTORIZED

◢ ABOUT THE **PRODUCT**

* Board and projector are not included
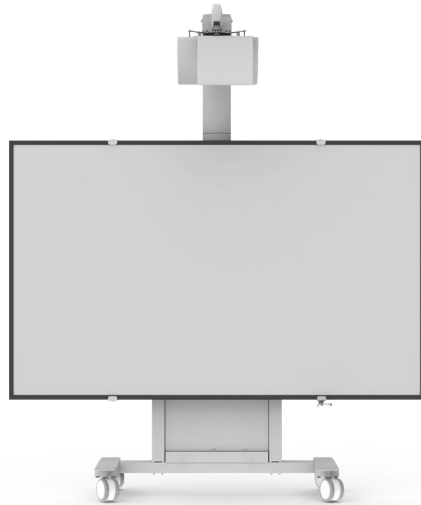

* Board and projector are not included

Ergonomic & Mobile Interaction

An ergonomic and flexible stand that is easy to move and easy to install. This solution, with its stable design, is perfect for large interactive boards. A rotatable projector pillar allows the system to pass through doorways easily.

The motorized height adjustment (applicable to most markets) is soft and quiet, readily available from a button under the interactive board.

Choose SMS Projector Short Throw Unislide to match the projector, alternatively an adapter for projectors with the projector pillar already included.

Ideal for use anywhere where equipment needs to be moved often. The mountings for the interactive board are universal, which means the product can be used with most currently available interactive boards on the market.

◢ GENERAL **INFO**

FINISH: White

MAXIMUM WEIGHT PROJECTOR: 8 kg

MAXIMUM TOTAL LOAD: 45 kg

MOTORIZED STROKE/TRAVEL: 500mm

MAXIMUM BOARD HEIGHT: 1600mm minus the projection distance.

MAXIMUM BOARD DEPTH: 90mm

NOTE: The maximum weight specifies the load capacity for motor and stand. User experience may differ, depending on the choice of projector and interactive board. SMS is not responsible for such variation.

WARRANTY: 2 years.

◢ STEPS TO **ORDER**
